Connect with NV Energy

Saving with Solar Hot Water

One of the biggest energy users in your home, next to heating and cooling systems, is your hot water system.

New incentives for NV Energy's electric customers are now making solar hot water a more affordable renewable energy option.

Residential electric customers may qualify to receive a rebate up to 50 percent of the system cost.

In northern Nevada, if you are an NV Energy customer who uses natural gas for water heating in a residential home, small business, school or public building, you could receive up to \$30,000 in rebates.

Call toll free at 866.786.3823 or send an email to RenewableGenerations@nvenergy.com

Rebates are subject to change and available on a first-come, first-served basis until funding is expended.

Creating an energy-smart future.

Energy You'll Save

Using a microwave oven can reduce your energy used for cooking by more than 50 percent.

Lowering your water heater temperature setting from 140° F to 120° F can reduce your energy bill by more than 10 percent.

Visit nvenergy.com/saveenergy for more energy saving tips.

*Our offices will be closed on
Monday, January 2
and Monday, January 16,
in observance of
New Year's Day and
Martin Luther King, Jr. Day
and in southern Nevada on
Monday, February 20,
in observance of
Presidents' Day.*

Get Credit for Energy Efficiency

Tax credits are available at 30 percent of the cost, with no upper limit through 2016 (for existing homes and new construction) for geothermal heat pumps, solar panels, solar water heaters, small wind energy systems and fuel cells.

For more information about the federal energy efficiency tax credits, visit www.energystar.gov.

College Scholarships Available

If you know of a Nevada high school student in search of a scholarship opportunity, NV Energy's Powerful Partnership Scholarship program may be just the ticket. The program recognizes the accomplishments of outstanding high school students who have demonstrated leadership in academics and community service.

Students must have a minimum grade point average of 3.0 on a 4.0 scale and completed 20 hours of community service within the previous 12 months. The one-time scholarships of \$1,000 awards are made based on the program's selection criteria and on the number of applications received.

To be considered for a Powerful Partnership Scholarship, high school seniors must submit a completed application by February 29.

For application details, visit nvenergy.com/scholarship.

Relatives of NV Energy employees and retirees including children, grandchildren, stepchildren, etc., are ineligible for this program.

Energy Exam

Take stock of your energy usage at your home or business with an online energy audit. You'll find online tools to help you save.
