# Save Money With Our Rebate Programs

Learn more at [NVEnergy.com](http://NVEnergy.com)

## Lower Your Bill with Wind Power

NV Energy offers one-time cash rebates to customers who purchase and install small wind systems on their residence, small business, school, public building or agriculture property. You can lower your monthly power bill by generating your own electricity. It's also a good opportunity to take advantage of limited-time federal tax incentives.

NV Energy does not sell or install renewable energy systems. You must apply for a WindGenerations incentive prior to building your system. Talk to a renewable energy contractor or consultant to learn more about systems costs, equipment types and what size system you would need to offset your current energy use.

For more information visit  
[NVEnergy.com/RenewableGenerations](http://NVEnergy.com/RenewableGenerations).

## Comfort Savings Program

NV Energy offers home weatherization services to our customers with qualifying incomes. These services help owners and renters who struggle with monthly expenses by significantly reducing utility costs. Our professionals help you understand your energy use and choose the most cost-effective measures.

For details about our free home weatherization program or to confirm eligibility, call toll free at **1-866-920-7822**.

## See Ya Later Refrigerator

Your old refrigerator uses up to four times the electricity of a new one. So, why not recycle it? You could save up to \$140 a year on your utility bills. We'll even haul it away free of charge and give you \$30. Plus, recycling that fridge will

help reduce Nevada's carbon footprint which means a lot of leftover clean air for our future.

Call **1-877-289-8260**  
or visit [NVEnergy.com](http://NVEnergy.com)  
for a **FREE pickup**.

## Green Cross Program

### *Aid for Those on Life Support*

If you or a household member relies on electrically operated medical equipment 24 hours a day, call the Customer Service number on your bill. A representative will enroll you in our Green Cross Program. Once registered, you will receive advance notification of scheduled electric outages for service maintenance. In the event of an unexpected power outage; we will take steps to restore power as quickly as possible.

## It's Never Too Early To Save Money

Northern Nevada customers, start thinking about lowering your heating costs next winter. Replace your gas furnace and you may be eligible for a rebate.

**Visit [NVEnergy.com/heating/](http://NVEnergy.com/heating/),  
email [hvacprogram@NVEnergy.com](mailto:hvacprogram@NVEnergy.com)  
or call (866) 588-6363.**

*Certain restrictions apply.  
For Northern Nevada customers only.*

## Maximize Your Pool Pump Energy Savings

A single-speed pool pump is typically your home's second largest energy consumer, behind your air conditioning system. Replacing a single-speed pump with a variable-speed pump could save you up to 80 percent in energy costs associated with your pool.

Variable-speed pumps run cooler, quieter and more efficiently. NV Energy is offering customers a rebate on the purchase of a new variable-speed pump. Customers will also receive a free pump calibration to ensure that you are maximizing the energy savings from your new pump. Ask your pool service professional or visit a

participating pool retailer for advice on which pump is right for your pool.

For more information about pool pump rebates, pump calibrations and a list of participating retailers and pool builders, visit [NVEnergy.com/saveenergy](http://NVEnergy.com/saveenergy).

**Save Energy  
with  
Paperless Billing
